A small boy fell into the shallow water at the ferry Sunday, but aside from being badly frightened, was uninjured.

Lost—A ring with two diamonds at Point Isabel between Seaside Saloon and postoffice. Return to F. Rivadulla for reward.

The weather man says tonight and Tuesday will be partly cloudy, with probably scattered showers. The wind is to be light and variable.

The river here is still at a standstill. It is very high and seems to be affected with the same complaint of some men we have heard of—it wants to stay full all the time.

Attention is called to the ad of Joseph Kuck, cabinet maker, in this issue. He is well known to all the older citizens of Brownsville, and wants a share of your patronage.

Immigrant Inspector Gassoway has been transferred from San Francisco to Tarpon, Texas, which will hereafter be his official station. From this delightful station he will look out for the trachoma infected immigrant.

THE HERALD learns that J. L. Landrum has lost about \$1000 worth of corn by the river breaking a levee and overflowing the field. Mr. Landrum is said to have had a splendid crop of corn and his friends sympathize with him in the loss.

The passengers to and from Point Isabel, especially on Saturdays and Sundays, are so numerous it would be almost impossible to name them, so THE HERALD mentions the fact that last Sunday's crowd was up to the usual standard, and all report having had a delightful time.

An operation was performed on Fred Kowalski Sunday morning at the United States hospital by Dr. J. K. Combe. Fred stood the operation well, refusing to take an anaesthetic, as he preferred to see and know what was being done. Today he is around town, and says he feels very well.

The union Sunday school, after meeting in divers places about the city, has secured permission to use the Presbyterian church and met there for the first time last Sunday. The church is very comfortable and there were several new faces present Sunday. The Sunday school feels very grateful to those in charge of the church for the favor extended in allowing the use of the building.

There was a warm ball game, (at least the sun was warm) Sunday afternoon on the post diamond between the town team and a Mexican nine. There were some regular grand stand plays, and once or twice both sides threatened to play good ball, but the weather was evidently too hot and the boys changed their minds. After a good long game the score stood 9 to 8 in favor of the Mexican team. The town boys say they intend to play good after a little.

A pleasant event which escaped THE HERALD chronicler last Saturday was a skating party which was given at the rink by a number of the younger set Friday evening. Mr. and Mrs. Hudson chaperoned the party which comprised Misses Gladys Rentfro, Joie Harris, Leta Hudson, Hughie Florence, Edith Stafford and Mayfield, Messrs. David and Paul Kowalski, Emile Wise, Edgar Hicks and Charles

Blalack. For refreshment, delicious ripe watermelons were served, a table being placed on the floor of the pavilion for the accommodation of the participants. All voted it a delightful affair, and many thanks are due the young men for the pleasure which they gave to their friends.

As announced some time ago, Hon. F. W. Seabury has no political aspirations this year, but will give entire attention to his personal business, which he feels has suffered during his absences in Austin in attendance upon the deliberations of the lower house of representatives of which he was speaker, a position he filled to the entire satisfaction of all. As a parliamentarian Mr. Seabury takes first rank, and he will be much missed by his colleagues at Austin. His retirement is voluntary and another term could have been his for the asking.
